MAINMORE CITY, March 20, 1854—10 o'clock P.M.

How. F. B. Cutting:

Ene—The correspondence between Colonel Monroe and Colonel Hawkins, our respective friends, has been submitted to me by the latter, by which it appears you did not intend the note originally addressed to me as a challenge, but a demand for an explanation of the language used by me in debate, and at the same time Colonel Hawkins Colivered to me your note of the 28th instant. In reply to that note, I state that the disavowal it contains of an intention on your part to be personal in the language which led to my romark, is satisfactory, and I willingly withdraw the expressions which I used in reply. A similar declaration at the moment would have prevented me from ever giving them utterance.

Permit me to express my regret that any misunderstanding should have occurred between us, and my gratification at its explanation.

I remain, sir, very respectfully, your obedient servant, JOHN C. BRECKENRIDGE.

Coroners' Inquests.

Drath Caused by Yrllow Fever—A Verdict of Crassing.—Coroner Withelm yesterday held an inquest at No. 54 Chrystie street, on the body of Sebastian Gebhard, a German by birth, forty years of age, whose death was caused by yellow fever, probably contracted on board the steamship Empire City, from Havana, which arrived here on Tuesday last. The evidence exhibits the following facts:—Eliza Gebhard, wife of the deceased, testified that her husband arrived on Tuesday, in the Empire City, from Havana; he had been sick on board ship since Friday, and was sensible, and told her that he had always been afraid of the yellow fever; he also told me that a friend of his, Mr. Charett, had died on board, of yellow fever, and his body was thrown overboard on Monday last; my husband was very weak, and I colid scarcely understand him; at one o'clock he began to vomit, which was repeated four times; he ejected from his stomach a blackish substance, just like ground coffee; I immediately sent for Dr. Lee Wolf, and he came about 5 o'clock and prescribed, but my husband could not swallow the medicine; at 8 P. M. he died.

It seems deceased had been a teacher of music, and had been in Havana since January 21, 1854. About fourteen days ago he sent his wife a letter from Havana, stating that he would return to New York, as three of his friends had died there from yellow fever.

Dr. Charles Habich sworn—Testified to having made an external examination of the body and found no marks of violence thereon; his skin was of a dark yellow color. From the appearance of the body, together with the history of the case, it was the opinion of the witness that death was caused by yellow fever.

Here daughter, with whom she was living, immediately sent for a doctor, who applied the usual remedies, but she died in a few hours. Coroner Wilhelm held an inquest upon the body. A FATAL ACCIDENT IN BLASTING ROCKS.—On Tuesday afternoon, a laborer named Barney Callahap, met with an accident which caused his death a few hours afterwards. The unfortunate saan was conveyed to his residence, in Forty-eighth street, where he died at nine o'clock that evening. Coroner Gamble held an inquest yesterday on the deceased, when a verdict of accidental death was rendered. Deceased was thirty six years of age, and a native of Ireland.

THE JAPAN SQUADRON.—Seeing in distant papers accounts of the recall of Commodore Perry's aquadron, we have taken pains to assertain as nearly as possible all the facts connected with its anticipated return to the United States. Thus we have every reason to believe that long since, on notifying the government of his promise to return this spring to Japan, to receive the answer of the Emperor to our proposals, the Commodore was instructed to comply with that engagement with all the ships under his command that could be apared from the Chinese seas, and then to return home with all his accept a steamer and two sloops of war, which are to remain in that quarter as the regular U. S. East Indies aquadron. And further, that the returning vessels will come home via the Facific, touching at San Francisco, and other most important points in the usual Pacific rotte; thence to the United States. The Commodore is expected to return himself overland with as little delay as possible. He is understood to have applied successfully for permission to de so,—Washington Star, April s.
